

"In our every deliberation, we must consider the impacts of our decisions on the next seven generations."

From the Great Law of the Haudenosaunee

April 10, 2007

**RE: GreenTime**

Dear Client:

We want to let you know about some changes that are happening with GreenTime<sup>®</sup>. We will be making several business transitions to help us meet the growing demand for LEED<sup>®</sup> and Sustainable Building Projects in Florida. We believe these transitions will help pave the way towards increased LEED certifications in the State, as well as help others to become LEED experts.

Managing Members Mike Hess and Vince Briones are working with X-nth (formerly GRG) and TLC Engineering for Architecture, respectively, to help make energy modeling, commissioning services, and LEED design standard practice at these two firms. X-nth Earth and TLC will also be offering LEED administration and consulting services to their clients. Effective May 1<sup>st</sup>, Managing Member Wendy Landry and Joanna Switzer are joining forces with Green Building Services (GBS), a full-service LEED consulting firm based out of Portland, Oregon. They will have the benefit of the company's extensive resources and experience.

At Greenbuild 2006, the USGBC announced its goal of 100,000 LEED certified buildings by 2010 as a step towards reducing carbon dioxide emissions. For Florida to do its part, we need at least 2,000 LEED certified buildings in less than three years! To help the USGBC reach its goal and make LEED standard practice, GreenTime will make available many of our in-house tools to help others achieve LEED<sup>®</sup> certification on their own. These tools can be downloaded free of charge from our website, so be sure to visit [www.GreenTimeLLC.com](http://www.GreenTimeLLC.com) over the next few weeks for details.

We want to assure you that work on our existing projects will continue uninterrupted. One of us will contact you soon to discuss specific project details and answer any questions. We thank you for the opportunity to work with you!

Sincerely,  
GreenTime LLC

Wendy W. Landry, AIA, LEED<sup>®</sup> AP
